

SPRING is in the air!

2025

Dear partners,

Spring is in the air!

It is with great joy that I present to you our Spring catalogue, **a vibrant collection that reflects the heart and soul of Caramel Publishing.**

As the new CEO, I am honored to join an organization that has long been a beacon of creativity and education for children worldwide. We believe in our ability to blend imagination with purpose, producing books that ignite curiosity, foster learning, and inspire young minds.

We are grateful to you, our valued partners, for believing in us, catalogue after catalogue. Your trust and collaboration are the foundation of everything we do. Your support allows us to keep bringing magical stories and valuable knowledge to life.

As we look to the future, innovation and sustainability will guide our journey.

Thank you for being part of the Caramel Publishing family. Let's continue to empower children with knowledge and create stories that resonate across cultures and generations.

I invite you to explore this Spring catalogue and discover the new series we have brought to life.

Warm regards,

Marika Luyckx

Explanation of the different symbols		Table of contents	
ACTIVE Ball games, obstacle courses, forest walks... Whatever it is, it's going to get you moving!	CREATIVE Fanciful, drawing, crafting... Let your imagination run wild!	Last and found!	4
RELAXING Playing cards, drawing, gardening... From time to time, we all need to unwind!	FINE Focusing down a bit, practising dexterity with a ball... There's only one rule: it's got to be fun!	Colourful night light	7
EDUCATIONAL Memory games, classifying objects, solving riddles... It's all about keeping your brain awake!	TASTY Yummy delicious recipes and beautiful cakes to bake!	Snake-locks!	8
SENSORY Fingerpainting, heading on different materials, identifying things by smell... Your senses will certainly be stimulated!		Set the animals free!	9
		Pebbles galore!	10
		Fruity labobs!	11
		Fighting fit!	12
		Fingerprint tree	13
		Bare feet!	14
		Amusing monsters	15
		But!	16
		Crook fingers!	17
		OH! Skittles!	18
		No mess painting!	19
		What's missing?!	20
		A witch's brew	21
		The colour hunt	22
		Recruits of all shapes and sizes	23
		Baby basketball	24
		Potato painting!	25
		What's that flavour?	26
		Bubble art	27
		Handmade hat	28
		Another Nature's mandala	29
		Catch those fish!	30
		More, please!	31-32

Fishing is fun!

Can you fish out of the objects that have fallen into the water?

What to do:

- Fill the washing-up bowl with water and put the bottle cap in small tins in it.
- It's up to your little one to fish them out and place them on a tea towel to dry.
- Ask your child to collect them either by colour, or by size (from smallest to largest) or by texture to help them learn how to classify objects.

What you need:

- A selection of plastic tea spoons, farm animals, wild animals, etc.
- Some small fabric hair ties.

Who's who?

Let's take a look at some photos. Can you recognise anyone?

What to do:

- For each photo, ask your child if they recognise anyone. And if so, can they name them?
- You could also include two different photos of each family member and ask your toddler to get the photos into pairs.

What you need:

- A selection of family photos (printed or on a screen)

25 ACTIVITIES for LITTLE ONES

Crafting together, growing together!

Active • Creative • Relaxing • Fun • Educational • Tasty • Sensory

Lost and found!

Where's your toy hiding? Go and look for it, you're sure to find it!

What you need:

- A nubby toy, a doll, a toy car, a sweet, a book...

What to do:

- Hide something your toddler loves and ask them to find it.
- Give them clues like 'you're getting warmer' or 'you're getting colder' to help them find the hiding place.

Colourful night light

We're going to decorate a small glass jar with multi-coloured bits of paper to create a pretty night light.

What to do:

- Ask your toddler to tear off bits of small pieces of tissue paper.
- Using the brush they can then stick these bits of paper all over the jar.
- At half past 6 place a small LED light inside the jar. The effect is guaranteed to please!

What you need:

- A small glass jar
- Tissue paper in different colours
- Other varnish
- A paintbrush

Spider's web

Watch out! You're going to have to squeeze through - you don't want to touch the spider's web...

What you need:

- One or more rolls of sticky adhesive wrapping paper or masking tape
- Some chairs, or tables could be used instead of furniture...

What to do:

- Unroll the adhesive paper or masking tape and wind it around several pieces of furniture to create a narrow channel with two sticky ends (in other words, a spider's web!).
- Ask your child to make their way through the web without touching the 'webs'. They don't want to get stuck!
- You can tell a story with a spider or the main character to encourage your child to go on the adventure.

Spin-tastic!

Painting with a salad spinner? Of course! Come on, you'll see!

What to do:

- Help your child to cut out a disc of paper the size of the spinner basket. Place this disc at the bottom of the spinner basket.
- Ask them to dip in some large globs of paint in different colours.
- Close the lid carefully before vigorously spinning the spinner.
- Check out the abstract work you have created together!
- Here's another idea: your coloured disc could be used to decorate a small clock that your child makes out of cardboard.

What you need:

- A salad spinner
- Good watercolour paints in several colours
- Some sheets of paper
- A pair of scissors
- Other (optional)

A word of warning: don't use a new salad spinner as you can't expect to get all the traces of colour out!

- The book parents and grandparents have been looking for
- Perfect for keeping a toddler busy for an afternoon
- Inspiring creativity and learning through play
- A variety of activities with clear illustrations

32 pages
Hard cover

This is a story about a young girl called Tilda. Tilda...

She lives...

- is tall for her age, with short, flaming-red hair.	- wears a simple cloth dress, and her blond locks are always wind-swept.	- in a thatched cottage in the middle of a poppy field.	- in a little house deep in the forest.
- has dark hair, worn in a long plait, and she doesn't like wearing dresses.	- in a cabin perched high up on a hundred-year-old oak tree.	- on a small farm surrounded by animals.	

"The Northern Kingdom has been struck by a curse! A spell has turned all my subjects to ice. And I myself have been taken prisoner by Goula the Terrible! I will offer..."

"It is at great personal risk that I have carried this message," whispers the messenger. "I beseech you to answer it favourably! On uttering these words, the messenger collapses of fatigue. The three brothers place them in front of a raging fire and bring over some warm soup."

- all the gold in the Kingdom	- my whole castle
- the horn of plenty	- the throne of the North

to any person who can free us from this curse!
Yours hopefully, Princess Magda.

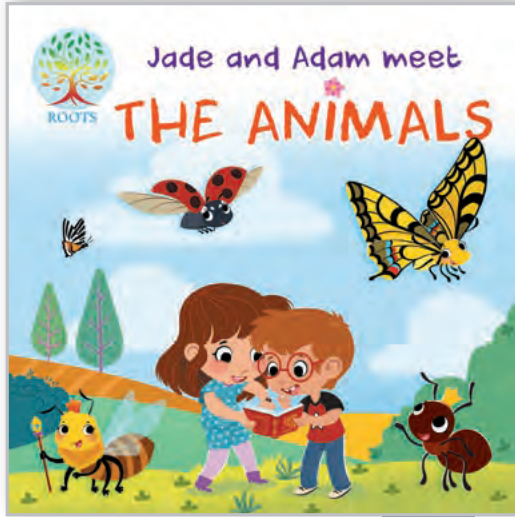

- An original and interactive concept
- The child becomes the storyteller by choosing the hero, his friends, the reward...
- Magical adventures await!

19 What's it like to LIVE IN SPACE?
Nobody actually 'lives' in space. North American, European, Russian and Japanese astronauts can visit the International Space Station (ISS), around 400 km above Earth, to work for around a month at a time. They go there to carry out research, conduct experiments and launch satellites. It must be very odd there as everything floats!

20 How BIG is the ISS?
About the size of a large six-bedroom two-bathroom house. It was designed to sleep seven people at a time, but during crew handovers, there may not be enough beds to go around. The space station has two gym and an unbeatable 360-degree view! It weighs 38,000 tonnes, so it's also moving pretty fast.

21 What can you EAT AND DRINK up there?
Food, which includes rice, pasta and even desserts, is generally dehydrated. In other words, all the water has been removed to make it small and light and help it keep for a long time without a fridge. To eat it, you just add water. Drinks are drunk through special straws to stop the liquid floating all over the place. And fizzy drinks are best avoided!

22 Can you have a PARTY in space?
Yes, but you won't have many guests! You can celebrate your birthday with a powdered or brewed 'cake', and your crewmates can sing 'Happy Birthday' as they float around. Maybe you'll also get messages from your family back on Earth to make the day even more special.

23 How and where do you SLEEP?
You have to sleep strapped into a special sleeping bag that is fixed to the wall or ceiling. Everything floats in the space station, so this bag prevents astronauts from drifting off while they sleep. It's very dark, and even if you sleep upside or upside down, your body doesn't feel it. It's like sleeping in a floating bubble.

24 What about going to the TOILET?
The lack of gravity makes going to the toilet a potentially sticky situation! Astronauts pee into a tube while a special Hoover sucks up the liquid for recycling. And when they need to do a number two, they have to strap themselves onto a toilet that also works a bit like a vacuum cleaner.

10 Do astronauts travel in ROCKETS?
A rocket is an engine, not a vehicle. Astronauts travel in a special rocket, which is propelled into orbit by a rocket. The rocket detaches and the capsule goes on to dock at the International Space Station (ISS). On the way back, the capsule releases parachutes after re-entering Earth's atmosphere, then fires its small engines to slow down further. But it's still a bumpy landing!

11 Can they take PERSONAL BELONGINGS with them?
Yes, but only very small, very light things. NASA provides its astronauts with a 'personal preference kit', a small pouch for storing a few personal items. It's only the size of a lunchbox, so there's no room for cuddly toys! What would you take?

12 What must they NOT FORGET?
Food! They need lots and lots of freeze-dried meals – enough to last them going for the length of the mission, plus some to spare. These don't have to fit in their pockets, though! Since all the water on the spacecraft is cleaned and reused (including sweat), they don't need to carry too much of it. This helps to keep the weight down.

13 Are spacecraft flown by REMOTE CONTROL?
Every space mission needs a pilot – but just like on any other flight, many of the flight manoeuvres are programmed. Launch is always done on autopilot, as is much of the cruising. But docking a capsule at the space station sometimes requires a human touch.

14 How FAST do spacecraft travel?
The Apollo 10 mission to the Moon in 1969 hit a record speed of almost 40,000 km/h. That may appear to be unreasonably fast, but it's nothing compared to the Parker Solar Probe, an unmanned spacecraft, which clocked a top speed of 586,000 km/h on 20 November 2021!

15 How LONG does it take to get there?
That depends where 'there' is! In theory, the ISS is just a few hours away, but it can take a very long time to dock – sometimes days! The Moon is three days away, then if we were ever to go to Mars, we would need to allow a good time months each way.

1 Is space a LONG WAY away?
Actually, it's not as far as you might think – it officially starts just 100 kilometres above our heads. But at this altitude, Earth's atmosphere is too thin to have regular air to breathe, so no special spacecraft are needed instead. And of course, space stretches out possibly infinite, so most of it is a very long way away indeed!

2 WHY do we need astronauts?
Well, if we want to know more about our solar system, somebody needs to go out there and take a look around! Astronauts are sent to space to maintain the International Space Station (ISS), carry out scientific experiments and launch satellites, among other important tasks.

3 WHO can be an astronaut?
If you're extremely good at science or engineering, or a skilled pilot, you could be an astronaut. But you need to be very fit too, as flying through space is pretty tough on the body. And if you want to work at the ISS, speaking English is not enough – you will also need to master Russian.

4 What TRAINING does an astronaut receive?
There is a lot to learn! Not only about space technology, the experiments carried out in space and life at the space station, but also basic medical skills – and often a new language too. Astronauts also receive practical training in conditions similar to those on a space mission. Their Earth-based training lasts several years.

5 Why do they train in the DESERT?
To practise survival techniques. In space, astronauts are going to find themselves in an unimaginably harsh environment facing unexpected challenges, and they need to be up to the job! So a few of them are left in the middle of a remote and extreme landscape – often something hot or freezing cold – to test how well they are likely to cope.

6 And in a SWIMMING POOL?
One of the big challenges of life in space is coping with weightlessness – in other words, not being able to keep your feet on the ground! The closest we can get to this here on Earth is underwater. Wearing heavy space suits and scuba equipment, astronauts spend hours carrying out complex tasks at the bottom of the biggest swimming pool ever used!

STICKERS

WITH A GAMEBOARD AND GAME PIECES!

Let's play! SPACE EXPLORATION The Game!

TRUE OR FALSE?
Astronauts need to wear helmets in space. (True)
The ISS is usually Earth's largest, Russian and European astronauts. (True)
Space is silent. (True)
High speed airplanes will overtake us in space. (True)
The Moon has more water than Earth because it has less heat. (False)
The International Space Station is the most complex machine ever built. (True)
Astronauts spend most of their waking life in sleep. (True)
The by-product of space exploration is oxygen. (False)
There are no engines on the Moon. (True)
Space exploration is all about the money. (False)

MISS THE SPACE STATION
You've missed the space station! (Miss 2 turns)

Fairy-Tale Learning

DELIVERY
FEB 2026

MATERIAL
01/08/2025

4 titles
210 x 297 mm
16 pages
+ stickers

Colour in this house. Look at the shapes shown to the right of the picture. Can you find them in the house? Colour them in to match.

Now link up each picture frame with the matching shape.

What a beautiful afternoon! Little Red Riding Hood is going to see her grandmother. 'Don't get sidetracked on the way!' her MOTHER calls after her. 'I won't, I promise,' the little girl calls back.

Stickers

- Early preschool concepts: colours, numbers, shapes and opposites
- Familiar and much-loved fairy-tale characters
- A mix of storytelling, educational activities, stickers and colouring
- Digital game available

24 pages
+ 8 pages cover
(+ die-cut /
shaped)

1. LOOK at the picture

2. HIDE it and do the exercises

3 CHECK your answers

MEMO KIDS

Practise your memory

At School

First, look carefully at the illustration. Then, hide it with the flap and discover fun memory games!

Luna and Nando do some of the school to find Uncle Fabiano's house. Can you see the lighthouse?

Look on the other houses.

What colour was the lighthouse?

Which house did you NOT see?

Uncle Fabiano lives on the other side of the island, on the Cape of Flowers. Does he have a dairy house?

You have to cross a bridge to get there too.

Can you identify Uncle Fabiano's house?

What about the bridge that leads to it?

Today is Nana's birthday and almost the whole family is here! Take a close look of the guests.

What a great birthday cake!

Which of these people did you NOT see around the table?

Which one of these is Nana's cake?

Pay attention to the number of balloons in each colour. Look at huge patches have delivered orders in it!

And then to send Uncle Fabiano has invited Nana and Luna to join him on the flower island this summer!

How many of each colour balloon did you count?

What did Nana and Luna's invitation look like?

The weather is lovely today, so the children can rehearse outside for their show. Look at their costumes and the instruments they are playing.

What animal was Nemo dressed up as?

Which of these instruments did NOT feature?

Luna and her friends are rehearsing a dance routine. Check out their costumes!

What type of hat were they all wearing?

What colour were the girls' leather boots?

- A clever, original concept
- A memory-based game book
- Guaranteed fun!
- Digital game available
